Outcomes

Intermediate Outcomes

Collaboration across the aid sector among a diverse range of organisations supports learning from work on the ground and harnessing indigenous knowledge
Staff within less-resourced CSOs, INGOs and donors and have increased knowledge of SEAH and understand how to adapt international standards in different contexts
Donors and INGO staff understand the challenges faced by less-resourced CSOs in addressing SEAH and know how to support them
Research teams in the aid sector better understand how they can contribute to filling evidence gaps in a safe and ethical way

Outputs

Conversation and knowledge sharing on SEAH take place on the online hub and in-person events
Access to SEAH service providers, training, resources
Lessons and evidence gaps identified and shared

Problems

Latest evidence on the root causes of SEAH and what works to address it available
